Activator Webspace

As volunteers, your support gives children the opportunity to experience the joy of cricket. We thank you!

Welcome to your
Activator Webspace

Activators are the key ingredient to making All Stars and Dynamos Cricket happen. Thanks to each of you, more kids than ever before are able to play and fall in love with cricket.

This Webspace provides support and guidance to existing activators in three main areas:

1. Advice and resources on recruiting new helpers and activators
2. Templates for communications with volunteers
3. Tips and tricks on delivering All Stars and Dynamos sessions

Activator Recruitment Toolkit

The ECB will be encouraging parents and guardians who have signed their children up to All Stars or Dynamos to get in touch with their clubs and offer their support as volunteers. This creates a fantastic opportunity for clubs to recruit new Activators and parent helpers for the upcoming season. Here you can find advice and guidance on how to maximise this opportunity and recruit more volunteers to support your club's activities

Benefits of Recruitment

ENGAGING MORE ACTIVATORS IN YOUR NATIONAL PROGRAMME DELIVERY BRINGS A LOT OF BENEFITS, INCLUDING:

1. Making your sessions even more effective by having more people supporting the delivery
2. Improving your volunteer experience as workload and responsibilities are shared out
3. Being able to expand and grow your All Stars and Dynamos offering
4. Finding engaged volunteers for other areas of your club's activity

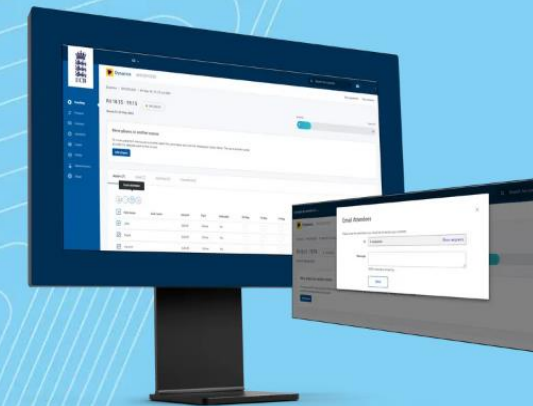

Club Comms to Parent Volunteers

As parents sign up to the programme you will have an opportunity to welcome parents and guardians to your club or centre and we would always encourage contacting them with key information about sessions. This could cover information about your venue, key contacts of activators and the club safeguarding officer, as well as what will happen in bad weather etc, but it's also an opportunity to lay the foundations for developing parents and carers as volunteers.

By setting expectations around parents being involved in sessions alongside their All Stars, or umpiring or scoring games for Dynamos, you can begin to break down the barriers or preconceptions that might be in the way of grown ups getting involved. For returning participant parents and carers, the messaging can be adjusted slightly to encourage engagement in training to become Activators. See below suggested template Emails for how you might go about contacting parents and guardians about your sessions and volunteering opportunities.

Emails can be sent through the clubspark system by selecting the individual or the full group of participants from the programme and then selecting the "Email Attendees". (See screenshots of process and resulting email)
